9850 SERIES

YES. WE CARE...
| Courteously | Attentively | Respectably | Effectively |

SUDE
An ISO 9001:2008 Certified Company

Typical Constructional View of **Angle Valve**

- Easy to Install : Infinitely rotatable actuator allows pneumatic connection in any position
- 50% more economical than ball valves
- 600% longer service life than ball valves
- Compact Design
- Fast Response
- Water hammer free

Self adjusting double packing glands.

Extended spindle guide and wiper seal.

Index

Typical Construction View of Angle Valve	1
Steam & Air Piston Angle Seat Valve (BSP Threads).....	3
Tri-Clamp Pneumatic Angle Seat Valve	4
Pneumatic Flanged Angle Seat Valve	4
Angle Seat Valve with Electro Pneumatic Positioner	5
Diaphragm seated stainless steel metal body valves with plastic piston actuator	6
Technical Data	
Tri-Clove End with Standard Actuator.....	7
Tri-Clove End with dome type cylinder actuator....	7
Tank Bottom Valves with dome type cylinder actuator.....	8
Electric Actuator with Diaphragm Valves.....	9
Diaphragm Seated Metal Body Valves with Heavy Duty Cylinder Piston Actuator.....	10
Valve CV.....	11
Common Accessory for Angle Seat Valve	11

Water hammer free (Flow below seat)

Many Connection options
Weld ends, threaded parts,
Tri-Clamp and Flange connections

Food and Beverage :

Processing industries control of mediums such as air, water, steam up to 180°C, dyes, vacuum

Control of Solvents, Steam,

Vacuum : Industrial Washing equipment and solvent recovery systems

**Sterilizers and auto-claves
for hospitals and Pharmaceutical
Industry :** Control of Steam,
Hot water upto 180°C

Laundries : Control of Water,
Steam washing agents

Machine Tools : control of coolant agents

Textile dyeing and bleaching :
Control of water, steam upto
180°C Codium hypochlorite

External advanced Angle Valve, especially compared with the normal globe valves seat valve, there is adjustment Sealing gland between over flow drain and slider, body structure can enforce more flow rate, especially compare with the normal globe valves.

Technical data:

- Pressure range : 0-16 bar, can be designed to 25 bar
- Medium temperature : -10°C ~ +180°C
- Environmental temperature : -10°C ~ +60°C
- Body material : Stainless steel
- Sealing material: PTFE
- Actuator material : PA
- Medium : Neutral gas, air, water

Option :

- Control functions : Normally open/ Normally closed
- PPS Actuator material suitable for environmental temperature : + 5°C ~ +130°C
- Double acting actuators
- Tri-clamp connection
- Electronic position feedback
- Independent adjustable stroke limit, suitable for high low flow schedule
- Manual emergency switch
- Namur Pilot valve suitable Namur adapter

SPECIFICATION TABLES REMAINS SAME FOR BSP THREAD / SOCKET / TRI-CLAMP / FLANGED

All above angle seat valves can be offered with electro Pneumatic Positioner for controlling duty application, may not be direct replacement for conventional globe valve but where ever accuracy is not important this type of valve can be used mainly in Paint Industries, HVAC Industries, Poultry Industries, Auto clay Industries etc., Input signal 4-20 mA, 60 PSI air pressure, Output signal 4-20 mA

Like in Globe valve the Plug construction is either V Port or Countered Trim, High friction trim etc, in this design standard balance plug is used where the pressure is balanced and it directly controls the flow as well as pressure. In Industries like Paint & Oil batching systems where accuracy is not important these type of valves are used due to its economical price & less space as compared to Globe valve which demands for higher price & huge space.

Common Specifications

Table Remains same for BSP Threads, Sockets, Tri-clamp & Flanged

Type 1168 Series Valves are External Air Pilot Operated Valves, which are used in Pharmaceutical and Food Industry. Operating diaphragm, isolate body and actuator from incoming fluid. The under mentioned valve and body configurations are available :

- Spigot to suit welding with ISO seamless pipe.
- Tri-clamp (TC) end connection

Specifications

Pressure range	: Refer to specifications table.
Temperature	: (-) 10°C to 140°C (EPDM, PTFE/EPDM diaphragm)
Ambient. Temp.	: (-) 10°C to 50°C
Body Material	: ASTM A351CF3M (SS316L).
End Connections	: Available in Spigot (6) Tri-clamp (7).
Diaphragm	: EPDM Std, Optional : EPDM/PTFE, BN, Silicon.
Finish	: Body : Inside RA (µM) 0.4, Outside RA (µM) 0.8 Electro polished (Optional)

ACTUATOR	: 30% Glass Filled Polyamide
Pilot Pressure	: 4.5 to 8.0 bar Air or Non- Corrosive gas
Solenoid mounting	: Valve has built in Namur Mounting interface; Any Standard Namur Solenoid Valve can be fitted.

Actuators are available In :

- Spring Return, Normally Closed.
- Spring Return, Normally Open.
- Double Acting without Spring.

Optional Features & Accessories

Valves are supplied in normally 'Closed' condition, with Single Acting, Spring Return Actuator.

Optional : Normally 'Open' construction, Double Acting Actuator, Electro Pneumatic Valve Positioner,

Valve travel indicator with Limit switches and LED, Proximity Switch Sensors, Stroke Limiting Mechanism,

Manual Over ride (in lieu of some accessories), Namur 3-way and 4-way Solenoid Valves.

Medium temp.	: -20°~ +150°
Environment temp.	: -20°~ +60°
Pressure	: 0 to10 bar
Control	: air, Neutral gas
Air pressure	: 3 to 8 bar
Size	: DN15~DN50
Actuator material	: PA66
Body material	: CF8 CF8M 316L
Sealing	: EPDM,PTFE
Stem material	: 304
O-ring Material	: NBR

Diaphragm Seated Metal Body Valves

with Heavy Duty Cylinder Piston Actuator

SUDE

1862

Technical Parameters :

Air driven	:	Compressed Air 0.4 – 0.7 Mpa
Nominal Diameter	:	15 -200mm
Nominal Pressure	:	0.6, 1.0 Mpa
Applicable Temp.	:	-10°C to -60°C
Connection	:	Flange, Thread, Union, Clamp
Valve Body Material	:	PVDF, UPVC, RPP, PPH Cast Iron, Cast Steel, Stainless Steel
Diaphragm Material	:	PTFE, EPDM
Applicable Medium	:	Water Treatment, Chemical Industry, Medicine
Actuator Material	:	Aluminium Alloy
Installation Direction	:	Any Angle
Optional Accessories	:	Limit Switch, Positioner, Solenoid Valve, Pressure-reducing Valve.

Common Accessory for Angle Seat Valve - Pharma / Food Products

SUDE

Manual Override For Stroke Actuator

Solenoid Valve

Proximity Switch

Electrical Position feedback switch with mechanical and automatic inductive switch system

Electrical feedback signal with a visual position indicator

Position Indicator

Electropneumatic Positioner

Note : Technical specifications, details & dimensions are subject to change with prior notice. dimensions in the table are approximate subject to final confirmation by sude.

Other Product

- Solenoid Valves.
- Pneumatically operated Control Valves.
- Motorised Valves.
- Pneumatic & Electric Operated Ball / Butterfly Valves.
- Pneumatic & Motorised Dampers.
- Pneumatic & Motorised VIV Dampers.
- Motorised Rising & Non-rising Sluice Valve.
- Heavy duty – Single phase & Three phase actuators for operating Gates & Chutes.
- Pneumatic & Motorised Pinch Valve.
- Pneumatic & Motorised Flush Bottom Valve.
- Entire range of Electrical Actuator.
- And Instrumentation Product likes Pressure Transmitter, PID Controller, Flow meter etc. for System Integration.
